India International School is a non-profit organization, whose main objective is to enhance the understanding of Indian culture, by providing quality instructions in the arts, languages, Yoga, and the history and philosophies of India. It is our goal and vision to have a cultural center in the DC area, irrespective of religious or other ties, where our students and members of the community can come to learn, practice and share the experience of India.

We invite you to support these efforts and share our visions.
